

DRIVE SAFELY WITH YOUR DOG!

CRACK YOUR WINDOWS if you want fresh air, but don't open them wide enough to let your dog hang its head out the window.

CONSIDER SECURING YOUR DOG in a crate or with a seat belt extension for dogs (available from pet supply catalogs) when traveling by car.

IF YOU HAVE A TRUCK, drive with your dog in the cab or safely secured in a crate or harness designed for pickup trucks (available from pet supply catalogs).

Jumping or being thrown from the back of a truck when you swerve or come to a sudden stop can cause your dog to be hit by another car, as well as:

■ broken bones ■ deep abrasions ■ head/chest trauma.

Allowing a dog to hang its head too far out a car window and exposure to wind, dust and flying debris can cause:

■ dehydration ■ conjunctivitis ■ ear infections.

**PLEASE REMEMBER, YOUR DOG DEPENDS
ON YOU TO PROTECT ITS SAFETY!**

**Never leave your dog in a parked truck or car
during the heat of summer.**
